Editorial policy. The *Journal of Fish Diseases* is an international journal which publishes scientific papers, short communications, review articles and book reviews. The remit of the journal covers all aspects of disease in wild and cultured fish and shellfish. Research papers are accepted on the basis of their originality and the discussion presented. Every paper is read and criticized by reviewers in whose field the paper lies. Where appropriate, reviewers other than those on the Editorial Board are consulted. However, final responsibility for the selection of papers rests with the Editor and the Associate Editor.

Editorial correspondence. Papers and other material for publication should be sent to the Editor or Associate Editor (see Notice to Contributors on back inside cover). Other members of the Editorial Board will be pleased to advise overseas contributors.

Subscription rates. The *Journal of Fish Diseases* is published quarterly at an annual subscription of £30.00 (UK), £36.00 (overseas) and $80.00 (USA and Canada). It is delivered by airfreight to North America so subscribers there may expect to receive copies within 2 weeks of publication.

Business correspondence. All matters relating to orders and subscription, back numbers and off prints should be sent to Blackwell Scientific Publications, P.O. Box 88, Oxford, England.
